From Madison.

Madison, Feb. 7, '54. The Judiciary Committee, it is now rumored, intend to report in favor of an indefinite postnement of the bill providing for an election of U.S. Senator. The originators of the project loubtless find that it is ".no go." Some of the reports in circulation a few days since, relative to the opinions of the Committee were doubtless wrong, and I now think that Messrs. Davis, Remington, an i Webster are entirely opposed to the bill. As to the other two, Messrs. Knowlton and Orton, I think that they do not see any constitutional objections to it; but still the report, the recommendation at all events-will be unani-

There was a quorum of the Senate present this norning, but nothing was done beyond what was sent in our telegraph report.

The Assembly had rather an interesting session on the whole. Among the petitions, and a brief memorial from Thomas Reynolds at a state action in his behalf relative to sundry how issued to him in 1852 for indebtedness of the state o him for work and damages on his contract for building the Portage Canal. The Improvement ands and revenues were pledged in these bonds or the payment of interest and principal.-Ic states that he has disposed of some of the onds, and the buyers have been unable to obtain payment of their interest from the Improvement Co., and look to him for payment, while he ooks to the state. Among the resolutions, was a series by Mr

Matts, reciting some of the matters of record concerning the old Canal land mortgages, and calling upon the Secretary of State for all the informa-tion in his possession relative to them, their whereabouts, and payments upon them; and, further, calling upon the Judiciary Committee for roport as to the necessity of further legislation for the punishment of persons receiving public dues without nuthority, and for embezzling public funds. A reference to the Report of the Secretary of State, more fully explained by an article in yesterday's Journal, will give all the light upon this subject which can now come before the public. We shall see whether this investigation is to be smothered as was the last attempt. Somebody, unauthorized, has been receiving payments upon these canal land mortgages. The money has not reached the Treasury, and mortgagors, when applying for releases by the state, are refused credit for their rayments.— There is iniquity on the part of somebody-who

Among the bills introduced was one providing for an amendment to the charter of the Milwaukee and Watertown Rail Road Co. I undertand it to be explained as follows ;- a bill, providing for such amendment of the Columbus, Montello, and Stevens Pt. R. R. Co. as will allow of a choice on the by positive legislation of Congress. The of routs though Columbia Co., was yesterday last had one was argued as matter of contract and in the Assembly for want of a quorum voting, through a questionable decision of the Speaker the spirit and language of Freedom, as the protem. Its friends, supposing it a "gone case" there, base and object of our Institutions - have introduced the bill referred to, by way of and in I say, this meeting, in a party or political substitute for the lost one, allowing the Milwauat view, is all the more significant by its kee and Watertown R. R. Co. to extend their road up through Montello to Stevens Pt.

There was also a bill, by Mr. Knowlton, proriding for a change of our present system of county government. It proposes that each Assembly district in a county shall elect one Supervisor where there are but two Assembly districts, the county at large shall also elections; and where there is but one such district, on request of a certain number of electors, the Circuit Judge shall divide it into three districts, each of which shall choose an Supervisor. These are the general provisions of the bill. At first view, it seems unnecessarily cumbrous; and it occurs to me that, if a change is demanded, the adoption of the New York syson the basis of profit and loss, will have no tem, of one Supervisor for each town, would be

The Judiciary Committee has reported a bill f 27, you surely will not be silent. Your for an appropriation of \$3,000 for the purchase king Danes, Norwegians, Germans and of books for the State Labrary, two-thirds to be and state Rehe dis lode in konor and assures, when coupled ports, &c., and the balance for miscellaneous I hope that some proper means may be afforded purchase the ground for a new site at the North to place our State Library within the circle of literary exchanges, originated and energetically prosecuted by M. Vattemare, which has already east nearly 40,000 volumes and documents into various libraries, of our country. A small annual appropriation would suffice for the purpose.

Among the bills passed was one which provides solve v, to a few hundred slave-masters and for bringing counties, not fully organized, within the pale of taxation. It met with no opposition. A bill proposing to require county Judges to rold a probate Court on the 1st Monday of each month,-the clerk of the Circuit Court to keep the records, and issue all papers, & Co., Mr. Terhune sent it back to the judiciary committee by thou the pressure of the privileged classes there, | hard to compel the probate judges to do the work, and give the county clerks all of the pay.

There was a brief, sharp discussion of the joint resolutions introduced by Gen'l Crawford, (proiding for a memorial to Congress for a change of the mode of electing President and Vice President and for making the terms of U. S. judges years instead of for life.) Motions to postpone, refer to the judiciary committee, and to table, were successively lost, but the resolutions finally went to a select committee.

"Personal explanations" are all the go, now a days. Yesterday we had one from Mr. Baker, regard to the Free Democrat, and this morning we had another from Mr. Wright, of Racine, doing away with what he said was a false impression conveyed by Mr. Densmore, of the Kenosha Telegraph, in a report of an anti-railroad meeting in the western district of that county. After this was finished, the bill, allowing a county vote in Kenosha county, on a county loan for the Kenosha and Beloit Railroad,-came up, and occupied the remainder of the day. Messrs. Hale, Hooker, and Wright occupied the floor most of the time .-There were motions to commit and re-commit to refer and re-refer, &c., and incidental discusson, until after 12 o'clock, when the House adourned for dinner. In the afternoon, the members took a fresh pull at the bill, and succeeded at about 5 P. M. in ordering it engrossed by a vote of 35 to 30.

There was no remarkable feature in the debate. other than some personalities showing no very kind feeling in the contending parties, and a speech by Mr. Orton, not very long, but taking a show not only this bill, but all others which provide for taxing people (by vote) for public objects other than those which are properly municipal or corporate purposes, quite useless and inoperative. He holds that the state has no right to pass such laws, or at all events, that any person who votes nay can successfully resist the payment of the tax. Unless I am very much mistaken, the Suprome Court of Ohio has decided to quite the contrary effect. There was an ineffectual attempt by Mr. Young, of Grant, to get at the opinion of the Judiciary committee upon this point,

NO SLAVERY IN NEBRASKA!

The following call is in circulation for a public meeting at Youngs Hall, on Tuesday evening next, of all opposed to the Nebreska swindle of Senutor Douglas. We hope that every man in this city who hates Slavery and loves Freedom will sign the call and attend the meeting. Let Mitwauxer speak out, as Chicago has done, earnestly, promptly and determinedly against legalizing Slavery in Nebraska: PUBLIC MEETING.

The undersigned, Citizens of Milwaukes, opposed to the extension of Slavery into Free Territory, invite a public meeting at Young's Hall, on Tuesday evening, the 14th inst., at 7 o'clock, of all who are opposed to the Nebraeka Bill, which proposes to repeal that part of the Missouri Compromise restricting the introduction of Slavery into all the Territory north of the parallel of Thirty-six and a half degrees of north latitude.

About one year ago, in an inland city in the State of New York, rapping manifestations became quite frequent at the weekly prayer meetings of a large and respectable church. The pastor repeatedly remonstrated with the mediums. (quite a number of whom were present) in vain. They protested against being charged as the cause of the rappings, and professed themselves the involuntary instruments of disembodied spirits.-They informed the pastor and the audience, upon spiritual authority, that if any opposition was made to them, some wonderful and convincing physical manifestations of spiritual power would take place; at the same time soundly berating the minieters and the church for their unbelief. Police officers, the mediums of legal authority, were called in, through whose "wonderful and convincing physical manifestations " order was restored, and the peaceable and decorous services of the congregation were never more disturbed

General Bracken some time since examined the ground. The whole of the allied deets were in the Black Sea on the 5th of January, and intimation of the fact, with a statement that they were to protect Ottoman territory from aggression or hostile acts was forwarded to the Russian government at Sebastopol by the British and French Ambassadors at Constantinople, who express the hope that the Admiral in command of the Russian forces may be so instructed as to perent any occurrence calculated to endanger peace.

The Czar was also informed of this fact by the British and French ministers at St Petersburg on the 12th January; but up to the departure of the Arabia, his reply had not transpired. Nothing short of the withdrawal of his ambassadors from France and England, and a formal declaration of war, was looked for.

good business:

Nothing heard lately about that Steamboat to be built and run from Stevens Point to Buil Falls. All the cry is, Lumber, lumber!—boards, shingles logs, square timber, oar stems, grubs! the same sternal song; in season, out of season, in the public houses, in the stores, saloons, highways and byways all, all—men, boys, women and school children, shout and sing the same tune. Now and then, some bold experimenter, without the fear of a logger before his eyes, has the temerity to attempt a modulation of the melody to the tune of Rail Roads and the Cars? For a moment a few unvilling listeners lend a rejuctant ear; but of Rail Roads and the Cars? For a moment a a few unwilling listeners lend a reluctant ear; but amon a relapse comes on, the experimenter finds his modulation rejected, his voice overpowered by the full chorus—Lumber, Beards, Plank, grubs legs—hurnsh for the Pinery Boys, Aye, boys hurrah for the "Pinery."

The party is actually out, surveying the route for the Green B.y and Minnesota Rail Road between here and Green Bay.—Stevens Point Pinery January 28th.

OUR BUSINESS PROSPECTS.—We must candidly say that at no time since our residence, in Water-town, has the prospect of permanent prosperity manifested itself in brighter colors than at present. manifested itself to engineer colors too at present with the near approach to completion of our Rail Road, we begin to feel some of the effects.—Already has real estate, begun to assume a rising character, and we notice among us many strangers, who are searching for points of location.—To all such we extend the hand of welcome, and To all such we extend the hand of welcome, and trust they will not let the opportunity slip which now presents itself for making desirable investments, and establishing a profitable business.—
Possessed as we are of a power within ourselves, needing only the hand of capital to bring into being a large city, we can fear no competition in our prosperity. Millions of dollars can eventually find profitable employment within the limits of Weigertown from the great extent of our manufacturing facilities. We deem the fitting of our

Petting Her Foct in it.—There was a grand ball lately at the Athenaeum, Sunderland, when all the youth, beauty, and fashion of the district were gathered together. In the midst of the amusements of the night, when the general enjoyment was at its highest, a rude lump of plaster fell from the ceiling on the head of a young lady, who was playing the "light fantastic toe?" to the music of the "Post horn galop." A scream—a swoon—a removal from the "marble hells" threw the company into consternation; which, subsiding into curiosity, the spectators looked up, and beheld a lady's leg dangling down below the ceiling! "All hands aloft!" was the cry, and soon it was discovered that sundry servant maids, coveting a sight of the ball, had scaled the heights to gratify their desire at a ventilator; when one of them, "putting her front in it," made the awkward exhibition alluded to. She was extracted from her predicament but little worse for the display of the "fantastic toe"—Notlingham Review.
